

Meeting Minutes Taken on 2nd September, 2008 at 1300 hours

Attendees: Huang Jian, Cui, Fil, Ken, Mohammad, Keane, David & Li Jiang

Late: Ida

Next Meeting: 09/09/2008 (Tuesday) @ 1300 hours

Contents:

1. Progress Updates
 - Plugin and extensions loading mechanism in earthd.
 - Mohommad demonstrated how extensions can be added easily to earthd and also in File Monitor plugin.
 - Plugins: File Monitor, metadata & bogus
 - It was agreed that these plugins will be used as demonstration for proof-of-concept during the end of Milestone 5 presentation.
 - API: Phase 1 completed, currently being reviewed
 - Keane and Cui had done some decomposition, and their codes are currently being reviewed.
2. Next steps (for sprint 6)
 - Make earthd able to load dependent plugins.
 - Work on GUI plugins using Rails plugin.
 - David shared his version of the GUI plugin architecture, on the surface, but was turned down by Huang.
 - Huang had worked on GUI plugins and shared his version of how the GUI plugin should work. However, his ideas were not accepted until he can prove his version is working.
 - David and Li pushed Huang to demonstrate his version in the next meeting, if his version works.
3. Opens
 - No opens
